

## Description

### CHESTER

Chester was born from the concept of creating a cover that incorporates the Chesterfield tradition of upholstery to transfer it to the internal cover through a play of solids and voids that characterizes the entire elastic membrane. Chester is a cover but also a real outdoor lamp, a flexible and dynamic product that allows you to characterize the outdoor area throughout the day, sheltering from the sun during the day and then transforming into a totem of light at sunset and the dark.

Materials

Solution dyed Acrylic Fabric

Designed for outdoor use, the solution (spun) dyed acrylic fabric resists salt water, chlorine and any type of harsh climate. Colours do not bleed and remain vibrant for a long time. A specific treatment makes the fabric water repellent, mould resistant and protects it from staining. This type of fabric resists the most extreme conditions and is suitable for year-round use in gardens, terraces, pool sides or on-board boats. It's definitely the top choice canopy fabric to select for your Product. UPF 50+ (UV Protection Factor) 280 gr/m2.

## Finishes

The materials used have been specifically selected and treated to maintain our products durability and consistency over time. The lumber we source is the best available to guarantee structural integrity and strength of the product. The aluminum profiles are powder coated or anodized to ensure a longer durability in time. The colors may differ from the real ones.
